## A MODERN, INNOVATIVE AND QUALITY UNIVERSITY

---

Philips University is founded on the most contemporary academic concepts and practices, being born out of the experience and expertise of internationally renowned academics. It has all the guarantees to become a leading university on a global scale, offering excellent education, research and service to society, always focused on the students' potentials.

Furthermore, and within the context of the strategic pillar of the Republic of Cyprus to make our country an international center for the provision of higher education, the main strategic goal of Philips University is to become competitive among internationally renowned universities, through means and mechanisms of quality, excellence and innovation.

## WHY SHOULD STUDENTS CHOOSE PHILIPS UNIVERSITY FOR THEIR STUDIES?

---

Philips University places great emphasis on an integrated student-centered approach in order to achieve and fulfill each student's academic, personal and professional goals. Its main concern is the quality, structure and modernization of its curricula, as well as its relevance to the needs of society, and business. Special emphasis is also given to ensure employability of our graduates.

In addition, due to the coronavirus pandemic, and within the context of creating the necessary system for offering distance learning programs, Philips University has invested large funds in acquiring and installing the necessary online systems.

The University has installed an electronic platform and has established the Distance Learning Unit, with the required teaching material to offer both conventional and distance learning programs and courses online, and has trained its teaching staff accordingly. Moreover, it has also made all the necessary preparations for the overall processing of academic and administrative procedures at the University online.

## FOUNDATION FOR SUCCESS
